5) The training of Midwives in Vaccination with a view to make their services readily available for vaccination of Gosha women, is a very desirable measure. The training will have to be thorough. It will have to consist not so much of pure theory as practical field work. The latter will depend on the personal interest the local District Medical Officer takes in the training and the opportunities and material made available for field practice.

6) It has been found from experience that each candidate should observe in the first instance about 50 cases done by a trained vaccinator and subsequently perform herself not less than 50 cases under proper technical supervision to qualify herself for independent work. She has also to be put in the correct way of maintaining proper record of her work and of reporting the same in the prescribed forms to the authorities concerned.

7) If the President, District Board, Tumkur can arrange for training as indicated in the above, there is no objection to his proposals being sanctioned.

of His Highness the Maharaja of Mysore,

Bangalore.

G.C H93 Sec 1 29-30

S i r,

I have the honour to state that Ghosha women do not generally get themselves vaccinated by the male vaccinators employed by the District Board and it is found necessary to have a separate agency for the purpose and with this object it is proposed to train all -- midwives in vaccination so that their services may be utilised in case of necessity. The subject was also considered at the meeting of the District Board held on 15-3-30 and they have resolved that the midwives be trained in vaccination for a period of one month in the District Head Quarters and that a provision of Rs 300/- be made therefor in the next year's budget. Copy of the resolution is enclosed for perusal. I request that sanction to the Board's proposal may kindly be accorded.

I have the honour to be,

s i r,

your most obedient servant,

In ch. President, District Board,
Tumkur District.
